

Oracle Business Intelligence Enterprise Edition (OBIEE)

Oracle Business Intelligence Enterprise Edition (OBIEE) is a powerful tool for analysis, reporting and publishing capabilities. Its scalable architecture and versatility allows it to work with Oracle as well as non Oracle Data when reporting. This feature rich tool provides real-time intelligence or disconnected analytics, allowing you to access the reports even when offline. OBIEE is compatible with Microsoft Office.

Orasys Consulting Has Experience

- Develop intelligence reports across multiple Oracle Modules
- Develop feature rich and user friendly Interactive Dashboards
- Develop Self Service Ad-Hoc reports to use over the web
- Build real-time business event triggered alerts which can be delivered via mobile SMS or Pdf email.
